10TH MARCH 2018
2PM - 5PM

MAKING
HOSPITAL
BEARABLE

KINDLY SUPPORTED BY

Teddy Bear Hospital

Teddy Bear Hospital is a free event being run by the Trinity Paediatric Society and its associated health care students. It is an initiative which aims to help familiarise children with the health care environment and try to help overcome any anxieties and stresses associated with it. Alongside this, we aim to show how healthy eating and exercise can be fun and effortless too. Your child and their teddy will travel through the health care setting with stops at various interactive sessions. These will simulate different aspects of hospital life such teddy bear x-ray and bandaging. Together, we hope that they will see first-hand that hospital isn't so scary after all.

10th March 2018

Drop in between

2pm - 5pm

Sports Centre

Trinity College Dublin

Dublin 2

The event is most suited to children aged 4 - 10 yrs

To book your child's free place, email teddybearhospital.tcd@gmail.com

We would appreciate it parents could be present on the day.

Tea and coffee will be provided. This event is most suited for children aged 4-9, but brothers and sisters are most welcome!

Don't forget your teddy!
